**Another trick to getting radiant complexion:** Get regular facials. One of Hollywood's best-kept secrets is **Intra**ceutical Facials (available at The Spa). It's an all-natural, non-invasive treatment that combines pressured oxygen and hyaluronic acid in a wand that's applied over your skin. The pressure helps the special cocktail penetrate the deeper layers of your skin so you see an instant lift, lesser lines and a gorgeous glow right after. Fans include Madonna, Heather Locklear, Molly Sims, Justin Timberlake and Eva Longoria Parker. "Intra**ceuticals** is essential before any major event," says Eva.
